2011 Map Now Available: Indigenous Peoples and Languages of Alaska

This 2011 map, *Indigenous Peoples and Languages of Alaska*, shows the indigenous language regions of Alaska and related languages of neighboring Canada and Russia, with place names in English and indigenous languages. It’s based on a ground-breaking Alaska Native language map created by Michael E. Krauss in 1974 and last updated in 1982. The Alaska Native Language Center at UAF and the Institute of Social and Economic Research at UAA produced it, in collaboration with Alaska’s indigenous peoples.

The map is 34 x 45 inches and is available folded or flat for $15, plus $5 for shipping, if it has to be mailed. To order from ANLC, go to:
