ISER PUBLICATION SERIES

ISER has several publication series, with periodicals of varying length, on topics of broad public interest. If no charge is listed, single copies are free. Most of the recent publications are also available on ISER’s Web site at www.iser.uaa.alaska.edu

Executive Summary: Status of Alaska Natives 2004. Various authors. Prepared for Alaska Federation of Natives, with funding from Alaska Native Sobriety and Alcohol Control Program and the U.S. Department and Human Services, Substance Abuse and Mental Health Services Administration, and ISER’s Understanding Alaska project. May 2004. 20 pages.*

“Blinded by Riches: The Prudhoe Bay Effect,” UA Research Summary No. 3. By Terrence Cole and Pamela Cravez. February 2004. One of a series of research summaries of ISER’s Understanding Alaska project, which is examining economic development issues and is funded by the University of Alaska Foundation. 4 pages.*

“What Does $7.6 Billion in Federal Money Mean To Alaska?” UA Research Summary No. 2. By Scott Goldsmith and Eric Larson. November 2003. One of a series of research summaries of ISER’s Understanding Alaska project, which is examining economic development issues and is funded by the University of Alaska Foundation. 4 pages.*

* Available on ISER Website: http://www.iser.uaa.alaska.edu/
“Effects of the Chignik Salmon Cooperative: What Permit Holders Say,” *Understanding Alaska Research Summary* No.1. By Gunnar Knapp and Alexandra Hill. July 2003. One of a series of research summaries of ISER’s Understanding Alaska project, which is examining economic development issues and is funded by the University of Alaska Foundation. 4 pages.*

* Available on ISER Web site: [http://www.iser.uaa.alaska.edu/](http://www.iser.uaa.alaska.edu/)
CLIENT REPORTS

These are reports prepared under contract for public and private organizations. Except as noted, all are available from ISER. The charges listed are just costs of copying; for reports ordered by mail, there is an additional postage charge. Many are available on ISER’s Web site.

Effective Local Institutions for Collective Action in Arctic Communities. By David Natcher, Sharman Haley, Gary Kofinas, and Walt Parker. July 2004. A summary of a June 2003 workshop, supported by the National Science Foundation. 17 pages.* $1.70

The Economics of University Research. By Scott Goldsmith and Pamela Cravez. June 2004. For ISER’s Understanding Alaska program, a special series of research studies examining Alaska economic development issues. 17 pages.* $1.70.

This report is in three volumes. Volume I is 450 pages and is the main report; Volumes II and III are 300 pages each and report detailed information on Alaska Natives from the 2000 U.S. census, by regional corporation boundaries. A CD of the entire report is $5. A printed copy of Volume I is $20, plus $5 postage if mailed; all three volumes are $45, plus $13 postage if mailed. The entire report is also posted on ISER’s Web site, and a 20-page summary is available, with no charge for single copies.*

* Available on ISER Web site: http://www.iser.uaa.alaska.edu/

  Evaluation of Student Exchange: 160 pages. $16.00.
  Evaluation of Teacher Training: 50 pages (original plus April 2004 addendum). $5.00
  Evaluation of Sister Schools: 50 pages. $5.00

* Available on ISER Web site: http://www.iser.uaa.alaska.edu/
Effects of the 2002 Chignik Cooperative: A Survey of Salmon Permit Holders. By Gunnar Knapp, Darla Siver, Patricia DeRoche, and Alexandra Hill. June 2003. Prepared for ISER’s Understanding Alaska program, a series of special research studies examining economic development issues, funded by the University of Alaska Foundation. 50 pages. $5.00.* A four-page summary is available at no charge for single copies.

ABOUT ISER

The Institute of Social and Economic Research (ISER) is part of the College of Business and Public Policy at the University of Alaska Anchorage. It has a core staff of about 30, including faculty members, research associates, and support personnel. Roughly one-third of its budget is from university money and two thirds from grants and contracts. ISER staff members not only do research but also teach undergraduate and graduate courses.

ISER has studied Alaska since statehood, maintained a record of change, and examined issues as they developed. Among many other things, ISER has looked at the impacts of oil and other resource development; the fiscal policies of state and local governments; and the effects of change on Alaska’s Native peoples. In recent years, ISER has increasingly drawn communities, school districts, and universities—as well as Alaska Native and other private organizations—into research projects.

Public and private organizations routinely ask ISER’s staff to present research findings. Policymakers and private citizens alike use ISER research, and its findings are regularly reported in the press. ISER also maintains the state’s largest economic database and projects population and employment growth. It reports findings in publications that vary from two-page summaries to books and maintains a broad mailing list of government agencies, libraries, private companies, and individuals. All ISER’s research reports are available through ISER’s offices at 4550 Diplomacy Drive in Anchorage (near the main UAA campus), and ISER is continually adding to its Web site at www.iser.uaa.alaska.edu.

If you have questions, please call ISER at 907-786-7710 , or send us an e-mail message at ayiser@uaa.alaska.edu.
